

Newforma: Forgotten Password

If you have lost your password, you will want to recover the password. If you access Newforma at multiple offices, you may have a single Newforma ID which allows you to use a single password at multiple sites. If not, you probably have a single password for use at the Fusch Architects site. See below for both methods of recovering your password.

Recovering a Fusch Password

Visit the Fusch Info Exchange site: <https://infoexchange.fuscharchitects.com/UserWeb/Login/Login.aspx?v=0>

Recover your password by entering your email address and selecting "Recover password?".

Email address was not valid. Please enter a valid email address in order to send a password reset email.

Recovering a Newforma ID

Visit the My Newforma site: <https://my.newforma.com/forgot>

If you have a universal Newforma ID, then you will want to go to the Newforma site to reset your password.
